

# CCS Retail Systems, Inc. is Offering 40% Off Migration Costs for RetailPro Users Available Until June 30, 2009

CCS Retail Systems (CCS) is pleased to offer very special **40% off current listing pricing** until June 30, 2009. These deep-discount prices are for existing RetailPro users needing to migrate to a new full-featured Retail System, in the wake of changes in the financial status of RetailPro, et al. We offer the CounterPoint SQL software and all the migration services you will need.

CounterPoint SQL (CPSQL) is an award-winning software system designed specifically from the ground up for Retailers. CPSQL represents over 15 years of field testing and enhancements. CPSQL is fully-featured and scalable to your size of organization with any configuration of distributed or concentrated geography. CPSQL is backed by Radiant Systems, a profitable, major, International Corporation.

## About CounterPoint SQL

## CCS CUSTOMER FEEDBACK

"CounterPoint's awesome - especially inventory tracking. - Neil G, More Power Racing. "

"CPGateway is great! Can't believe any business wouldn't have it. - Kay L, Heritage Nursery. "

"... the most important aspect of getting started with CP is having a qualified company like CCS to lend support and advise on how to set up your whole system ... - All American Canopies. "

"Radiant Systems' solutions help us track inventory and also provide better customer service. Once we learned the depth of the Radiant functionality, especially related to inventory, and that they could make quick customer changes for our specific needs if necessary, we were sold. - Harvey P., PetPros"

CPSQL is meeting the needs of thousands of Retailers in a wide variety of settings. It is based on current Microsoft SQL technology and Windows GIU technology. A short list of the key features includes: (See enclosures for additional overviews)

- The Microsoft SQL Database provides the power, reliability, scalability, and tailoring you need. It gives you the widest selection of add-on software packages for Point-of-Sale, Operations, Back-office, Accounting, and Office Automation integration possible.
- The SQL dictionaries, procedures, tables, and other elements are fully customizable.
- Fast and Easy Checkouts using a Touch screen POS interface with a wide array of supported OPOS and non-OPOS retail devices. Menus and procedures are Fully Customizable.
- Complete Inventory Management, Automated Multi-Location Purchasing, 3D Gridded Items, A/P Vouchering.
- Comprehensive Crystal-based Reporting for POS, Sales, Purchasing, and other Operations' areas.
- Integrated ecommerce Systems, 2-second Internet Credit Card Processing, Mobile POS Stations.
- Accounting Interfaces, Complete Audit Trails, and Rollback Recovery.
- User-oriented, Administration Utilities and Configuration Tools.

## About CCS Retail Systems

CCS has worked with all sizes and configurations of Retailers for over 27 years. We have over 2,000 users working with our systems. We offer complete sales, support and service, training, and installation teams.

We are Migration Specialists. Our technical skills and experience have allowed our customers to migrate to CounterPoint products from a wide variety of platforms and environments. We support Windows, Linux, UNIX, and other common technologies. We preserve as much of your existing Hardware and Operating Systems platform investments as possible.

For many of our sites, we have provided all the Hardware, Operating Systems, Communication Infrastructure, and Applications. This Integrated Services approach has dramatically reduced the complexity and costs for many of our customers. It has also facilitated a more rapid transition to CounterPoint from their previous systems.

We pride ourselves in excellence in follow-on support. Contracts are available for remote or onsite support during normal hours, extended hours, and 24x7 periods.

We are ready to discuss your needs, visit you locations, perform demonstrations, and provide the guidance that will ensure a smooth transition to CounterPoint SQL. Visit our website for full details on CCS and the CounterPoint family of products.
